ART

My body of work includes multimedia dioramas, murals, architectural mosaic, sculptures, tin art, photography, graphics, animations and costume design.

I am a creator: designer and builder of fantastic spaces...

Throughout my life, throughout my travels and living in three continents, I have learned to work with many different materials and ideas.

Adobe building and tin art in New Mexico, leatherwork in Dakar and Flamenco dancing in Sevilla...

Being fluent in four languages has given me a unique cultural perspective that colors all aspects of my life.

This knowledge of cultures translates visually to my work.

TEACHING

Kindergarten in Switzerland from 1975-1992 with the focus on social interaction and healing through the arts.

I have continued teaching art in various venues up to the present. I love to unlock hidden gifts in others.

DANCE

Is food for my soul

I love my intergalactic universal school of LIFE!
